Mayor Hernandez Evaluates Take Home Cars for City Employees

Hialeah, Florida – Mayor Carlos Hernandez has asked all City department heads, including Fleet Maintenance, to conduct a study on the City's take home vehicle policy in an effort to determine the essentialness of a take home vehicle towards the job duties of such employees. Mayor Hernandez has asked each City department head to provide a legitimate justification for the usage of take home vehicles in their respective divisions.

“With high gas prices and the economic recession our Country is presently encountering, it is imperative that as local government we operate as efficient as possible in order to save taxpayer dollars,” says Mayor Carlos Hernandez.
